

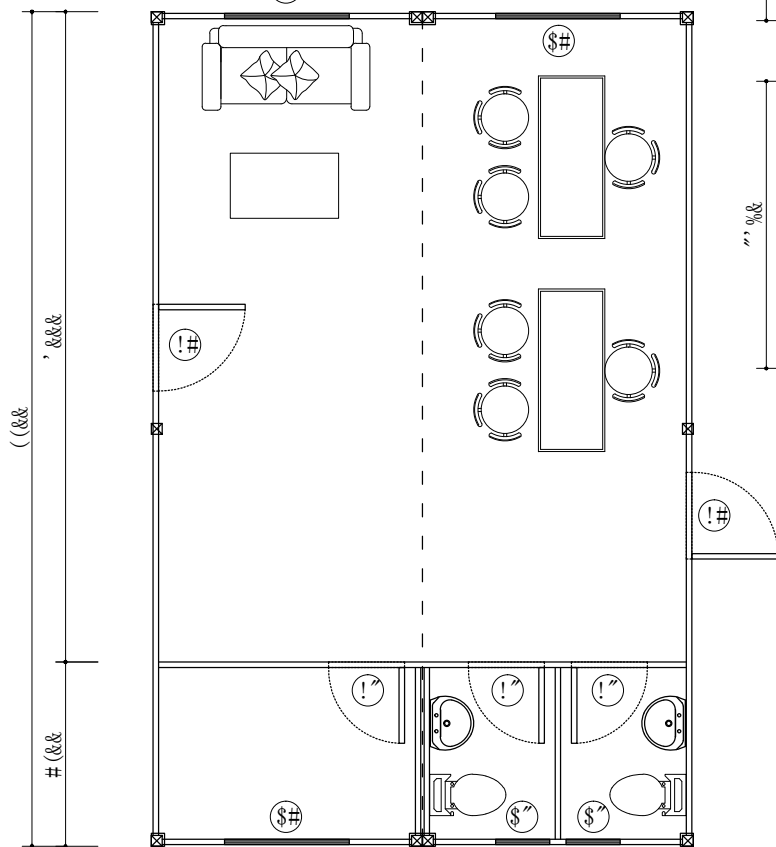

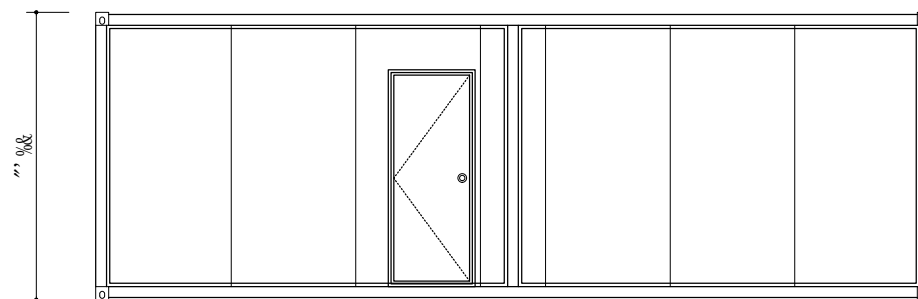

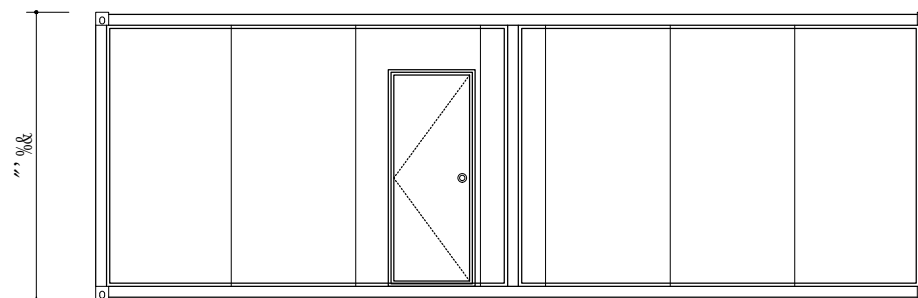

Diagram illustrating the structure of a 32-bit floating-point number. The top line represents the 32-bit number, divided into three sections: a 1-bit sign (S), an 8-bit exponent (E), and a 23-bit mantissa (M). The bottom line shows the mantissa as a binary fraction, with the first bit being the most significant bit (MSB) and the last bit being the least significant bit (LSB).
